ABOUT US

Varistor Technologies Pvt. Ltd. is an Indian conglomerate company headquartered in Bangalore, Karnataka, India, specializing in e-commerce, retail, manufacturing, education, and technology. Varistor Technologies established in 2016 with the vision to focus on businesses that will add new values to the society. We ensure a stress-free buying experience by providing superior services and products that cater to our customer's individual needs. We always try to convey our services with the best care, knowledge, and a passion for excellence. Varistor runs by a core team of highly qualified professionals with a deep understanding of the products and services.

PRODUCT:- VARISTOR SANITIZER CHAMBER

We at Varistor Technologies Pvt. Ltd. keeps on improving and updating every day. We aim to promote the technology in the best possible manner and help to add value to the life of people. Our main motto is to keep the life of the business and its people safe. In this phase of life, we are suffering from a sense of fear due to Covid19. Looking upon the impact of this virus, VARISTOR TECHNOLOGIES is coming up with **Varistor Sanitizer Chamber**, full-body sanitizer. This is a portable machine equipped with sanitizing facilities. The product is designed and available as a tunnel walkway for personnel decontamination. The sanitization starts with foot entry. Upon entering the chamber, the sensor automatically detects a human and sprinkles the mist of hypo sodium chloride for disinfecting. The sanitizer is sprayed for 3-5secs and automatically stops until a new person is detected. As per procedure, a person undergoing disinfection will need to keep their eyes and mouth closed inside the chamber.
